

# CENTRAL AIR CONDITIONING ION PURIFIER

**Applicable scenarios:**  
Living room, Bedroom, Office, etc.

## Product features

- 01 Purification by negative oxygen ions**  
Remove harmful substances in the air, such as dust, allergens, bacteria, etc.
- 02 Ultraviolet photocatalyst**  
Have sterilization function.
- 03 Plasma electrostatic dust removal electric field**  
It can filter out most particles smaller than 5 microns.
- 04 Photolysis oxidation (trace ozone)**  
Remove odors and decompose harmful gases.
- 05 No filter consumables.**  
No cleaning, no replacement.
- 06 Nearly zero power consumption.**  
Extremely low power consumption.

## Product functions

- Disinfecting bacteria and viruses can reduce allergens and relieve allergic symptoms.
- It can effectively adsorb tiny particles such as dust, smoke, and pollen in the air.
- Negative ions can regulate the human nervous system, promote human relaxation, relieve stress and anxiety, and improve sleep quality.
- Negative ions can activate human cells, enhance cell activity and metabolic capacity, and improve human immunity.

## Product parameter

Model	KJF-B02
Power	5.5W
Rated voltage	12VDC
Weight	2.8kg
Size	605×200×84mm
